

Door Actuator Product Offering

Established in 1987, REGITAR U.S.A., Inc. is a major manufacturer and distributor of charging system components (voltage regulators, rectifiers, diodes, trios); ignition system components (modules, coils, distributor caps, rotors, pick-up coils); other automotive components (sensors including ABS, MAF, MAP, oxygen, cam/crankshaft, knock, throttle position, etc); and other mobile safety products (TPMS, backup camera, rearview mirror system). REGITAR's warehousing and distribution facility in Montgomery, Alabama services the United States, Canada, Mexico, Caribbean, Central and South America. Our worldwide network in Taiwan, China, UK, and Brazil services the surrounding regions and countries.

"To be Respectable, Responsible, Reliable through Research" is the sole goal for Regitar. Becoming a brilliant enterprise is our vision. We promise to provide effective and efficient energy conversion products and services to our customers.

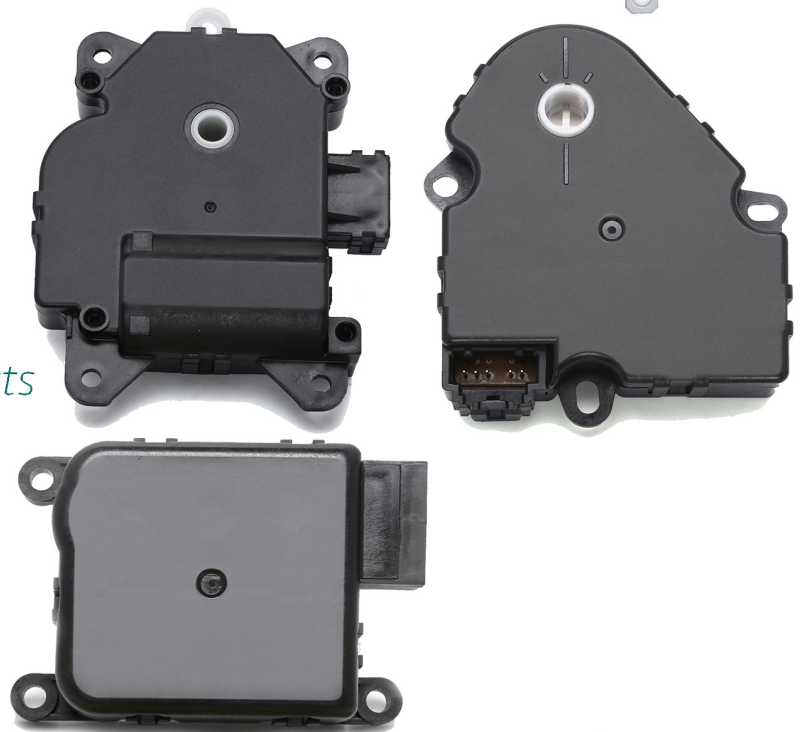

All the new products are developed in accordance with OEM quality standards. FAI samples must qualify all the testings from our lab first before all the departments can approve them. Regitar's future growth relies on continuous research on both market and products.

*Taking Pride
In The Quality of Our Products*
